

Postgraduate Research Positions Available

WANTED: Energy Researchers of the Future

Recruiting NOW

Up to 15 Engineering Doctorate postgraduate studentships starting October 2016 are available.

Applicants will need either a 1st class or upper 2nd class honours degree in a relevant including Chemical, Environmental or Mechanical Engineering, Chemistry, Materials Science, Metallurgy, Physics, Mathematics, Geology or Earth Science.

Training provides:

- For those who satisfy the UK residency requirements a non-taxed stipend of up to **£18,000** per year
- For EU students fees and basic stipend will be covered
- For international students fees will be covered
- **International travel** budget for conferences and laboratory visits
- **Industry sponsorship**

Industrial involvement:

Research Engineers will spend time working closely with industrial sponsors:

- BF2RA
- Caterpillar
- Doosan Babcock
- Electric Power Research Institute
- GE Power
- Thermacore

Successful candidates will work with academia and industry to shape the exact scope of their doctorate.
